# SOON TO STRIKE VEIN IN BULLOCK

Cross Cut on the 210 Level is Driving Toward the Four Veins.

### TERRITORY IS MINERALIZED.

Combination is in Seams That Bear Mineral-Work at Tintie

Work on the Bullock properties in the east Tintic district are being pushed and within a short time some sen-Within the next few days the occaseut the Bullock property is expected to cut. the Bullock vein. Already the crosscut is in a highly mineralized territory

carrying copper and from and almost any round of shots will bring down the rich ore body. Three shifts are driving the work as fast as possible.

The cross-cut is being sent through to catch four veins to the west of the shaft. Besides the Bullock vein there are the three railroad veins, which on the surface show from three to six feet wide.

ride.

From the Bullock vein seven cars of pro were shipped from the old shaft. As soon as this is struck it is believed that a still better grade of ore

king on the Tintic Combination tain values in copper and iron and some lead. The shaft is now down 180 feet. When the 200 foot level is reached drifts will be sent out east and west to catch the voins that crop out on the surface.

ork on the Tintle Empire will soon Work on the Tintic Empire will soon be running with a bang. Work has been started on the shaft, the grading has been done and a road put in. Lumber is being hauled for the timbering of the shaft and the buildings to be erected and the new machinery that is to be installed is on the road.

Conditions at the East Tintic Development company are going along in fine shape. The drift which recently encountered the ore body found in the cave is developing a larger ore body than before and the little strip of ground is expected to yield some good

ground is expected to yield some good

## MINING MARKET UNSTEADY.

Iron Blossom is Again Hit by Bear Raiders-New York is Busy.

Raiders—New York is Busy.

A clear bear market was in progress on the local mining exchange this morning, and in spite of better conditions in many eastern securities, there was scarcely a ripple of excitement in the trading. Early in the game New York developed a decided activity and closed strong. East Crown Point was the victim of the market and sold at a point off at the close of the regular session, but regained ground on the ession, but regained ground on the pen board.

open board.

Iron Blossom was the greatest suffered today when the price at the close was hammered down to \$2.72½. Heavy selling was shown in Sloux Convolidated. It was weak at the close at \$1.07½. The number of stocks sold today was 106,550, and the amount represented was \$39,735. The total number of shares disposed of this week was 933,454, while the amount represented was \$371,055.12. On the curb market there was some activity. American Mining & Reductivity.

ion sold for 4 cents, East Tintic Gold King for 2% cents, Cedar for 8 cents and West Quincy for 7 and 8 cents.

### OHIO GOPPER MAY This Morning's Metals. BE MUCH LARGER SILVER, - - 5034 COPPER (cathodes) - 12%

Adjoining Territory May Yield Another Mine Equal to Present One.

### IS HIGH GRADE SULPHIDE.

Shaft and Upraise Will Connect Sunday Night-Are Now Thirtyfive Feet Apart.

Developments at the Ohio Copper ompany before many months may be such as the Bingham district never dreamed of and such that will make the mine the largest in the west. At present it has developed an ore body sufficient to place it in the class of the greatest in Utah, but this may still be greatly added to should this theory

Although Geberal Manager Collin Me-hitosh does not wish to discuss the great prospects of developing a glant sulphide mine on the property, he ad-mits that there is a possibility. He asserts that as the company now has one of the biggest things in the state, there is no reason to discuss mostlytic. re is no reason to discuss possible

The ore body that is blocked out is at a big fortune in sight and work for the next 20 years. But beyond the hanging walls of this lode is a sulphide for nation in virgin country. This has not een explored and probably will not be until the cross cut from the Mascotte unnel penetrates it at depth. It is Keystone, 500 at 28. Little Chief, 500 at 41. Miller Hill, 1,000 at 10. New York, 1,000 at 8%, buyer 60; 400 at 834, 1,500 at 834; 2,300 at 8; 1,000 at 10. ome high-class ore-bearing row has seen found. It is further understood hat this is of a quality that would dield readily to smelter treatment. The hanging wall and the foot wall of

he Ohio Copper quartzite is more ighly enriched than the country to ach side of it and ore has been found in that was above 20 per cent coper, and native copper has been discovered that went as high as 40 per cent.

### SPECULATIVE TERRITORY.

Up the mountain above the hanging wall of the big Ohio copper quartitic lode is a large territory of unexplored country. The hanging wall is known as the what "Cheer Vein," while above it is the Elvira vein. Between these two yelps is the spoonlaths territory. OPEN BOARD.

What it yields. The upraise from the Mascotte tunnel which also crosscuts the lode from which the great mass of 14,000,000 tons of concentrating ore is to be taken, will have to go something over 400 feet to reach the hanging wall. In all probability this will in time be sent on through the wall into the new country. If indications do not fail this should, at the great depth attained yield another mine of equal, if not greater value.

On account of the location of the unexplored part of the property, it could also be worked to advantage by the enving system, such as will be used in the mine proper. It would only mean the extension of the system on into the territory further up the mountain. The present ore body only covers about six acres of the 120 acres held by the company.

Work at the Ohio Copper shaft and upraise is progressing rapidly and by tomorrow night the two will be connected, and this engineering feat will be an accomplished fact. The men had but 30 feet to go when Mr. Mc-Intosh was at the mine and measure.

had but 30 feet to go when Mr. Mc-Intosh was at the mine and measurements show that the work will be finished easily by tomorrow night. This will be of great advantage to the company as it will provide a less expensive way of furnishing air to the mine.

### SOON TO OPEN EXCHANGE.

SOON TO OPEN EXCHANGE.

The new stock exchange which has been discussed for some time, will soon be an active affair. A five year lease has been secured on the ground floor of the Atlas block and 200 seats will be sold. Of the number 50 seats will be placed in the treasury to be sold for not less than \$500 and 150 seats will be offered for sale at \$200. Already more than one-third of the seats have been subscribed for. It is the intention of the association to place the seats among only the largest mining men and stock speculators in the state.

In connection with the exchange a clearing house will be established which will aim to eliminate all wash sales and the scalping or outside or ders.

At the same time the best method of procedure will be discussed.

in his selling up to 56%, after opening at 55% to 56.

Inderviews by leading traders predicting a sharp rise in the price of lard implied general demand for provisions their resulted in a strong market. Prices to the opening were 5 to 25% higher. Wheat—The market was firm all day, of the volume of trading was not large wing to the disposition of many traders of await the government report on farm asserves to be published on Monday. The chip point for May was 1.16%. The close as strong with May up & at 1.16% of the point for May was 1.16% of the close as strong with May up & at 1.16% of 1.04%. Corn—The high point for May was 1.06% of 1.04%. Corn—The high point for May was cached at 68% of 8% to 8%. Corn—May 1.0% of 1. The directors of the Imlay Mining company yesterday practically cosed a contract for the erection of a ten stamp mill on the company's property in Humboldt county. Nevach. It is said that the company now has blocked out 30,000 tons of \$14 ore. The Rawhide Queen Mines company is storing ore taken from a rich streak in the workings with a view of shipping a record breaking ton of high smide. The richness of the ore has the camp guessing and the Rawhide Russler ventures the guess that it will be anywhere form \$50,000 to \$300.

HUTTER AND EGGS.

Chicago, March 5.—Butter—Steady, cameries, 12022; dairies, 200226. Case—Steady, at mark, cases included. Birsts, 194; prime firsts, 204; thouse—Firm Daisies, 154; twins, 144; 5. young Americas, 184; long horns, 40164; SUGAR AND COFFEE.

New York, March 6 Sugar, raw, firm, air refining, 3.30; centrifusal, .56 test, .50; molasses sugar, 3.66. Refined-Stondy Crushed, 5.25; powder-d, 4.75; granulated, 4.66. Coffee-Quiet, No. 7 Rio, 8½; No. 4 santos 9. EVAPORATED FRUITS.

New York, March 5.—The market for evaporated apples continued quiet and quotations are practically nominal. Fan-cy are quoted at \$2,004; choice, 14,074; prince, 61,006; and common to

fair, 50.6.

The consumption of prunes is said to be on a heavy scale but clearly of supplies are available. Quotations range from 3% in 7% for new crep California fruit up to 40s-50s, and from 6% to 9 for Oregons ranging from 40s-50s to 20s-50s.

# BUSINESS BEGINS TO BRIGHTEN UP

Clearing Up of Conditions in the Price Readjustments Are Commencing to Show the Long Looked-for Improvement.

### TAFT'S ADDRESS HAD EFFECT.

Regarded as Important Contribution-Expectation of Full Industrial Recovery is Stronger.

New York, March 5 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Already the price readjustments are beginning to work toward the exbeginning to work toward the expected improvement in demand, and this and President Taft's imagural declarations favorable to "that measure of stability, which is essential to the life and growth of all business," are important contributions to finance and commerce, and are making stronger the hope of full industrial recovery. Both in sentiment and amount of new business in sight the iron and steel trade shows some gain.

In spite of the upward tendency of

88:13:13:73:30:1-h. derro	gions is not relished.  The presidential inauguration proved to have been discounted, but the subject of government measures against corporations is kept in consideration by the pending commodities case decision and by the restrictions on the Erie bond issue and the Spokane rate decision of the interstate commerce commission.  Prices moved irregularly in the opening dealings in stocks which were on a small scale. Colorado Fuel showed a gain of 1½, Republic Steel preferred and American Ice and American Car%. Minneapolis, St. Paul and Sault Ste. Marie fell 1 and Erie %. An active demand prevailed for a number of the less active railroad stocks and specialties. Meanwhile the usual leaders, although neglected, showed growing firmness. American Ice gained 2%, Toledo, St. Louis and Western 2, the preferred 1¼. Kansas and Texas 1¾, Denver & Rio Grande 1½, and the preferred Norfolk and Western, lowa Central and Mackay companies preferred 1. The passing of the dividend on Railway Steel Spring cost the stock a decline of 1¾. St. Louis Southwestern preferred also sagged 2 and Kansas City Southern and Minneapolis and St. Paul, 13%.  The market closed easy and dull. Additional advances occurred in Sloss-Sheffield Steel of 1¾, Ontarlo and Western 1½, and Rock Island preferred. Colorado Southern first preferred, Minneapolis, St. Paul and Sault Ste. Marie preferred, Pressed Steel Car and International Pump 1. Prices receded in the latter under the influence of profit taking sales. Railway Steel Spring fell 3 and Kansas City Southern preferred and Pacific Mail 1.	## The leather trade is still dull and unsatisfactory.    BANK CLEARINGS.
